| j      | kejjel   | you                                |
| w      | sewwa    | when                               |
| z      | beża     | zip                                |
| v      | tavla    | valve                              |
| xg     | telvixin | measure                            |
| s      | kiser    | set                                |
| f      | tifel    | fast                               |
| x      | mexa     | shore                              |
| b      | bajda    | bed                                |
| d      | dilek    | dip                                |
| g      | baga     | gun                                |
| psil   |          |                                    |
| p      | pupa     | pear                               |
| tsil   |          |                                    |
| t      | totor    | tutor                              |
| ksil   |          |                                    |
| k      | kikkra   | cake                               |
| dg     | gidra    | cudgel                             |
| dz     | gazzetta | bids                               |
| c      | čičra    | church                             |
| ts     | zalzett  | pizza                              |
| m      | ommi     | mum                                |
| n      | nanna    | nannie                             |
| l      | lewlū    | low                                |
| r      | rifes    | ferret                             |
| q      | qanqal   |                                    |
| h      | heles    | hare                               |
| sil    |          |                                    |
| pause  |          |                                    |
| breath |          |                                    |

\* Nota: sil, pause u breath huma wżati biex jiddeskrivu tipi differenti ta' silenzju jew psewdosilenzju.

Note sil, pause and breath describe different type of silence; maltese phoneme 'q' is not easily reproducibile in formal english.
