## Report On AJAX.

<b>Aim:</b>	Writing a report on Asynchronous Javascript and XML (AJAX) and the technologies behind it.
<b>Details:</b>	Your report should include (not exclusively): <ol style="list-style-type: none"><li>1. An overview on each of the underlying technologies (e.g. XML).</li><li>2. An analysis and description of a popular free web application that uses AJAX. Use diagrams where appropriate to describe the architecture of that application.</li><li>3. A conclusion to the report with an evaluation and critical analysis of similar technologies.</li></ol>

Notes:

- Do not use wikipedia as an exclusive source of information.
- Remember to attach the plagiarism declaration form just after the report's cover page.
- The report should not be longer than 30 pages (1.5 spaced, standard margins) but no less than about 15 pages.
- Use diagrams wherever possible in your explanation.
- Refer to the assignment instructions at <http://webster.cs.um.edu.mt/kguil/assignment.html>
